Summary

"I have a solid foundation in networking and advanced computer networks, with hands-on experience in concepts such as the OSI model, TCP/IP, DHCP, STP, ARP, VLAN, inter-VLAN routing, OSPF, VPN, network hierarchy, CDP, LLDP, syslog, VPN, and ACL. I have completed several projects using Cisco Packet Tracer and possess basic skills in both Python and Java, along with an understanding of object-oriented programming principles. Currently, I am learning Kali Linux to enhance my cybersecurity knowledge. I am seeking an internship in computer networking or in cybersecurity to further develop my skills and apply my networking, Python, and Java knowledge in a practical environment
